

2023 Builders' Appliance Guide

Dear Valued Business Customer,

We're honored that you're considering Whirlpool Corporation to be a part of your projects. We understand that a successful project demands reliability. This year, we'd like to focus on what we can do to be a supplier you can count on.

That's why we've taken the time to design these appliance packages for you to help you meet the needs of your specific homeowners and home types.

Our goal is to help you build your business — and as a leader in appliance manufacturing and a fixture in homes worldwide, we know we have the portfolio of brands and sales expertise to help you choose the right products for your project or homeowners.

If we have your business today, thank you for your continued support, trust and investment in our brands, products and people. And if we don't, we would be humbled to be given the opportunity to help you build better communities — and lives — for your customers.

Why Whirlpool Corporation Refrigeration

Our brands offer a wide range of refrigerator configurations and options so you can provide your customers with something that fits their home and lifestyle.

Find a variety of size and capacity options in the traditional top-freezer style.

Side-by-side models offer more freezer space as well as options like ice and water dispensers.

French door refrigerators put the fresh food people use most often at eye-level with an easy-access drawer for frozen food. The 4 Door refrigerator presents a sleek modern look while providing flexible organization spaces.

Why Whirlpool Corporation Laundry

Our brands offer a variety of laundry pair options for your customers that provide quality fabric care in a style that fits their home.

Traditional top load pairs offer a range of features from the basics to innovative fabric care with a variety of size and capacity options. Gas and electric dryers with flatback installation and long ventilation capabilities are also available.

Front load laundry pairs offer large capacity and trusted cleaning performance. Plus there are a variety of installation options including stacked for small spaces or on pedestals for ergonomic loading and unloading. Also available are closet-depth models and dryers with long ventilation capability.

Specialty laundry options include ventless dryer models for unique building situations as well as compact laundry pairs and stacked laundry centers for smaller spaces.

Resilient Supply Chain

2 Ways To Serve You Our Products

Both paths provide unique value and are designed to meet the diverse needs of your business.

DIRECT SERVICE

Responsibility & Community Support

Whirlpool Corporation is committed to being the best global kitchen and laundry company, in constant pursuit of improving life at home. That's why we strive to continue improving the way we do business, going from what works to what works better. That lets us deliver one of our finest products: TRUST. Our ESG strategy is rooted in 3 things: Sustainable Products and Operations, Employee and Community Support, and Doing the Right Thing

Care Counts™ Laundry Program

Now in its eighth year, the Care Counts™ Laundry Program by Whirlpool brand has grown to support students in need of access to clean clothes across 37 states and 144 schools throughout the U.S. Since the start of the program in 2016, 83% of participating students facing chronic absenteeism have seen an increased rate in their attendance.

Habitat for Humanity's BuildBetter with Whirlpool Initiative

This initiative—the centerpiece of Whirlpool Corporation's 21 year, nearly \$130 Million renewed relationship with Habitat for Humanity—is an expansion of Habitat's existing BuildBetter program that will deliver more than 250 climate-resilient and energy-efficient homes to hundreds of Americans in need of affordable housing over the next three years.

Homes for Our Troops

Whirlpool Corporation is the official appliance partner for Homes For Our Troops—an organization that builds and donates specially adapted custom homes nationwide for severely injured post-9/11 veterans. Whirlpool Corporation provides in-kind donations of large and small kitchen appliances as well as laundry appliances for the homes built.

Environmental Highlights

We continue to work on sustainability initiatives, both because reducing climate impacts saves you money in the long term — and because it's the right thing to do.

- Achieved a greenhouse gas emission reduction of 27% in Scopes 1 and 2 from 2016 to 2021
- Achieved Zero Waste to Landfill Gold or Platinum levels at 90% of our global manufacturing sites
- Over the past five years, 34% reduction on water consumption has been achieved globally
